1. Executive Summary

his proposal outlines a structured development plan tailored for Orchid Spell Bee's four-tier competition model. The objective is to create a seamless, professional registration and payment ecosystem that builds brand credibility, generates targeted enrollments, and supports business growth. The solution provides a highly engaging user experience, ensuring smooth student progression from the School level through the National level.

To accommodate your structural requirements, we have outlined the comprehensive dynamic upgrade package below.

2. Option B: Complete Dynamic Website Upgrade (Approved)

This option replaces the static site with a scalable web application built to automate the spelling bee's entire registration ecosystem and manage student progression.

Platform Access: Fully responsive (Mobile, Tablet, Desktop) | Basic Admin Panel

Core Features & Functionality:

- Standard Dynamic Website: 5 core pages included to anchor your brand: Home, About Us, Contact, Competitions & Rounds, and Gallery.
- Premium Custom UI/UX: A sophisticated, high-end design featuring a deep blue-black gradient accented with vibrant teal tones.
- Custom Branding Illustrations: Modern, eye-catching 3D isometric and animated figures utilized throughout the site, designed strictly without human faces.
- Anchored Registration Portal: A dedicated student registration and login portal cleanly anchored to the right side of the layout to ensure maximum conversion and content flow.
- Automated Payment Integration: Robust gateway configuration (Razorpay/Stripe) built to handle tier-specific entry fees and seamless progression upgrades as students qualify for higher competition tiers.

- **Admin Management:** A secure administrative dashboard allowing your team to track student enrollment, monitor competition progression, and push vital system announcements or content updates.
- **Frictionless Transitions:** Smooth page transitions and basic interactive animations built in to enhance user retention and engagement.

3. Core Software System

COMPONENT	ESTIMATED COST (INR)
Complete Dynamic Website Upgrade • 5 Pages (Home, About Us, Contact, Competitions, Gallery) • Premium Blue-Black & Teal UI/UX Design • Non-Human Animated Branding Illustrations • Right-Side Anchored Student Login/Registration Portal • Tier-Specific Automated Payment Integration • Core Admin Dashboard & Student Tracker	₹ 35,000 /-

4. Project Timeline

Task	Timeline
Development	7-16 days
Testing & Feedback Rounds	3- 5days

5. Conclusion

We believe that this complete dynamic upgrade will provide **Orchid Spell Bee** with a powerful, automated foundation to scale its multi-tiered competitions seamlessly. By integrating a secure registration ecosystem with an anchored user layout and automated payment routing, this platform will drastically reduce administrative overhead while delivering a modern, high-converting digital experience for students and parents alike.
